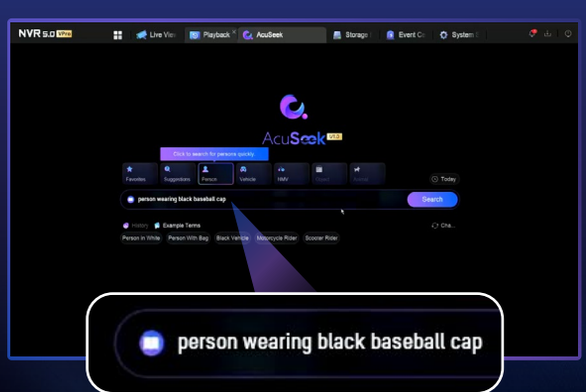
AcuSeek Application for Business Parks

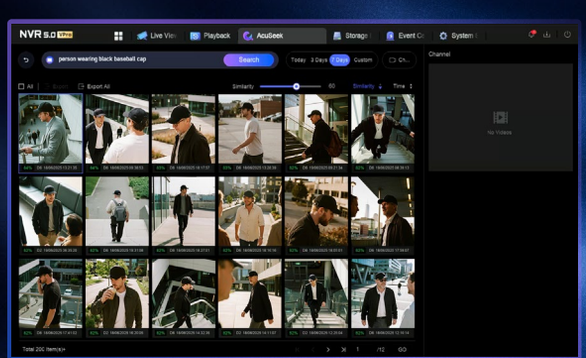
What challenges do business parks face?

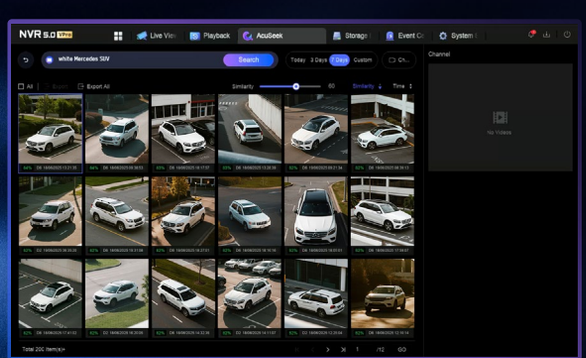
- Unauthorized visitors or suspicious individuals enter the business park – Security teams can't easily identify these people across the park.
- Employees forget where they parked at the end of the day – Manual searches make it hard to help staff locate their cars.

How does AcuSeek help here?

Type the words, and get the clue instantly!







Key advantages of AcuSeek

1

Search Broadly
Search for objects such as people and cars, or find specific items by connecting them to a certain feature, like searching a car by type, color, or make.

2

Search Accurately
You provide detailed text input, and the system will understand the nuances to reduce false matches.

3

Search Instantly
Get results in seconds from hours of video footage – no more manual searching frame by frame.

4

Search Flexibly
Use shortcuts like "find persons" and "find cars," and customize your own search keywords.

Seamless system integration
